### Purpose

The Science of Mind is a philosophy, a faith, and a way of life dedicated to awakening the conscious experience and expression of every person's Divine Nature. The United Centers for Spiritual Living is a spiritual organization committed to supporting the mission of the Science of Mind through prayer, community, teaching, and publishing.

### Purpose of a Study Group

The purpose of a Study Group is to introduce the Science of Mind teachings to persons who are ready to take charge of their lives, and learn how to think and live from that spiritual center inherent to all. The goal is to be a core of people joined in a common pursuit of excellence; to be part of making a difference for good wherever one is.

### Guidelines for Practice

Because they operate as teaching centers under the umbrella of the United Centers for Spiritual Living, a not-for-profit California religious corporation, Study Groups are reminded that they "shall in no way be active in carrying on propaganda nor in any other manner attempt to influence legislation...nor participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of any candidate for public office."

Study Groups are also asked to confine their studies and discussions that are open to the public to topics relative to the understanding and use of Science of Mind principles. So long as this Study Group is sanctioned by the United Centers for Spiritual Living, and listed as an available outreach activity in Science of Mind Magazine, the Study Group agrees to be governed and abide by the rules and procedures of the United Centers for Spiritual Living, as determined by its Ecclesiastical Officers and CORE Council.

I have read, understand, and agree to the foregoing.
